

Plaisted's MN DOT Soil Mixes

The following MN DOT Topsoil products are computerized-blended to insure project requirements:

- **Common Topsoil Borrow:** MN DOT 3877-1A is designed for general use as a turf growing medium.

- **Loam Topsoil Borrow:** MN DOT 3877-2B is designed for use as a plant growing medium in designated areas such as landscape beds.

- **Sandy Clay Topsoil Borrow:** MN DOT 3877-3C is designed for use as a plant growing medium in critical areas and for topdressing erosion stabilization mats; it is screened and pulverized.

- **Rooting Topsoil Borrow:** MN DOT 3877-E is designed for use as a well-drained coarse sand medium for vegetative plant restoration, plant preservation or as a plant growing medium for rooting, water quality and infiltration.

- **Boulevard Topsoil Borrow:** MN DOT 3877-F is designed for use as a structural soil for plant establishment in streetscape boulevards.

- **Filter Topsoil Borrow:** MN DOT 3877-G is designed for use for water quality, as a plant growing medium and a filtration medium.

- **Organic Topsoil Borrow:** MN DOT 3877-H is designed for use as a plant growing medium to enhance existing soils.

Plaisted's Certified MN DOT soil mix is used for these decorative plantings

Plaisted's MN DOT Soil Mixes

Plaisted's Computerized Blender

Plaisted Companies' four-bin computerized blender has been used to create this product. This unique blender has an on-board screen deck that removes oversized particles and a mechanical paddle wheel that insures uniformity. The computer automatically adjusts for flow rates of material and will stop the conveyor belt when feed bins run out of material. Computerized blending assures a consistent and accurate product... load after load.

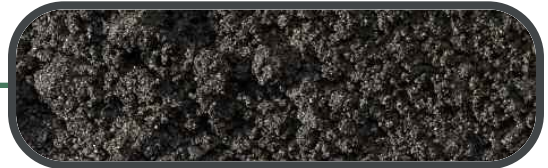

Plaisted's Certified MN DOT Soil Mixes are composed of silt, clay, topsoil, Peat, Inc. peat or compost.

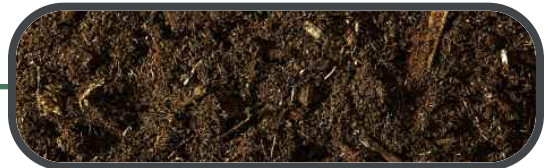

Silt

Clay

Topsoil

Peat, Inc. peat

Plaisted's organic compost
