

Plaisted's Elk River Rock & Boulders

Attention landscapers, landscape architects, homeowners and contractors.

When creating a landscape that truly reflects the feeling of being surrounded by a natural Minnesota product – **Plaisted's Elk River Rock** is an ideal choice.

Elk River Rock contains a variety of colors and enhances whatever building or planting it borders. **Elk River Rock** comes in sizes from 3/4" for drainage situations to 10 foot boulders for creating boulder walls.

Q. I have noticed a new trend where designers are using larger decorative rock around buildings and driveways. Does Plaisted Companies carry this type of rock?

A. Yes, Plaisted Companies has a 2" and 4" rock that does not move around in the wind or wash away in rainstorms. This larger rock gets noticed and brings a better proportional-look to large-sized buildings and walkways.

Q. Are the colors you show of the various rocks on this product sheet true colors?

A. The rock and boulder pictures are more brilliant because we have wet the rocks to show the colors they contain. Our rock is shipped dry so the colors will be subdued upon arrival.

Q. What size rip rap do you carry?

A. We have rip rap ranging in size from 2 inches to 24 inches. It can be used for decorative rock or can be used in the construction of small or large rock walls.

Plaisted's Elk River Rock & Boulders
