

# Plaisted's Greenhouse Mix

**Plaisted's Greenhouse Mix** consists of composted pine bark, coarse fibrous Peat, Inc. peat, and coarse perlite. The composted pine bark creates air space and allows water to the root system. The coarse fibrous peat allows maximum water holding capacity and helps retain nutrients for the plant. Perlite is very light, helps create air space and has good water retention properties.

Pine bark combined with peat and perlite in the percentages above creates maximum growth.

**Q.** Why should I use *Plaisted's Greenhouse Mix*?

**A.** It is made locally which means less freight cost to you. You may buy it in bulk which further reduces the cost or in 2 cubic yard bags.

**Q.** Do nursery and greenhouse growers use composted pine bark and fibrous coarse peat when growing their products?

**A.** Yes, most growers do. Growers have found over time, these are the best ingredients for obtaining best growth.

**Q.** Is Plaisted now selling to the greenhouse market?

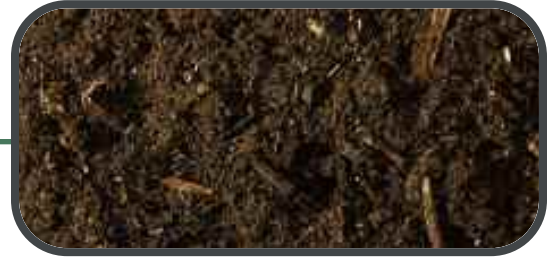

**A.** Yes we are. We have worked with several greenhouses to develop this product with excellent results. We have 18 years of experience in selling to nursery growers and also have worked with perennial growers during the same time period.

# Plaisted's Greenhouse Mix

*Plaisted's Greenhouse Mix* is comprised of *Plaisted's Composted Pine Bark*, Peat, Inc. *fibrous coarse peat*, and *coarse perlite*. This mix has been created using Plaisted's computerized *Accublender™* to assure a consistent product load after load.

## Plaisted's *Accublender™*

Plaisted Companies' four-bin *Accublender™* has been used to create this product. This unique blender has an on-board screen deck that removes oversized particles and a mechanical paddle wheel that insures uniformity. The *Accublender™* automatically adjusts for flow rates of material and will stop the conveyor belt when feed bins run out of material. The *Accublender™* assures a consistent and accurate product... load after load.

## Delivery Options

### *We deliver!*

- Our fleet of 40 trucks can deliver from one yard to 45 yards of product per load.
- Or, come in with your own vehicle and our friendly staff will load you.
