

# Plaisted's Wonder Bed Mulch/Amendment

**Plaisted's Wonder Bed Mulch** consists of composted pine bark, coarse fibrous peat, and organic yard compost. This product is for customers looking for that natural-look that is environmentally friendly to plants. Plants will love this mulch, and its dark color enhances the color of the plants it surrounds.

**Plaisted's Wonder Bed Mulch** will produce better products because the peat retains the water and the organic compost provides organic matter.

It is the only mulch you can mix in with your native soil as an amendment and even after 2 years continue producing higher quality soil for even better growth.

**Q.** Do other mulches have this peat and organic matter in their mulch?

**A.** No.

**Q.** Why do you use composted pine bark?

**A.** This is what the growers use. The composted pine bark creates air space and allows water to the root system. It takes about one year of watering, turning and constantly checking the quality before we will sell it as composted pine bark.

**Q.** Is this mulch new to this region?

**A.** Yes, homeowners have been asking for something new, natural and environmentally friendly.

**Q.** Do I have to haul it away when I topdress?

**A.** No. Just blend it into the native soil for better quality soil conditions.

# Plaisted's Wonder Bed Mulch/Amendment

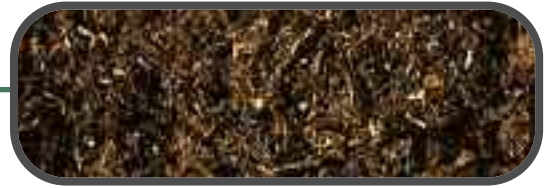

*Plaisted's Wonder Bed Mulch* is comprised of *Plaisted's Composted Pine Bark*, Peat, Inc. *coarse fibrous peat*, and *Plaisted's Organic Yard Compost*. This mulch has been created using Plaisted's computerized **Accublender™** to assure a consistent product load after load.

## Plaisted's **Accublender™**

Plaisted Companies' four-bin **Accublender™** has been used to create this product. This unique blender has an on-board screen deck that removes oversized particles and a mechanical paddle wheel that insures uniformity. The **Accublender™** automatically adjusts for flow rates of material and will stop the conveyor belt when feed bins run out of material. The **Accublender™** assures a consistent and accurate product... load after load.

## Delivery Options

### *We deliver!*

- Our fleet of 40 trucks can deliver one yard to 45 yards per load.
- Or, come in with your own vehicle and our friendly staff will load the product for you.
